

Beat The Heat Operating Instructions

SKU 3466

Start slowly, then increase the powerful thumping speeds with Beat The Heat a unique masturbation sleeve. Feel the thrill rising as the creamy smooth silicone channel and ribbed texture provide exciting sensations that increase exponentially with 6 stimulating, pulsating vibrations. The exterior is ribbed too for slip-proof additional hand stroke sensations. Is it getting warm in here too? The heat intensifies and feels like the real thing. This sleeve delivers a delicious thumping function that mimics the best part of a BJ, that tongue-flicking sensation on the frenulum, the sensitive spot under the head. Then as if that weren't enough, the final 'over the top' function is a 'Turbo Max' button that you can press when the licking and vibrating motors are both in effect. This instantly boosts both motors up to their maximum speed, giving you an outrageous blast of intense sensation! These four features together add up to an unforgettable experience that will delight and excite you every time you enjoy this waterproof Beat The Heat.

Features :

- Silicone interior and ABS plastic outer wall
- Not for use with silicone lubricants
- Heating function automatically regulates for safety
- Waterproof
- Phthalate free and Latex free

- Sound level: <60 decibels
- Complete charge: 4 hours
- Subsequent charges: 2.5 hours
- Run time high speed: 1.0 hour
- Run time low speed: 1.5 hours

Operating

ON/OFF: Press the power button (center)  for 4 seconds. The light above the MAX button will flash and startup in standby mode. Tap again to advance through two or more Lick and Thump Speeds. Press again quickly two more times for additional speeds and thump. Press the power button (center) for 4 second to turn OFF.

Tap the (top)  button for HEAT. There is one heating temperature that reaches a safe maximum heat and self regulates to maintain a safe temperature. The light will glow when HEAT function is in use. Tap again to disengage HEAT.

Tap the (bottom)  button 7 times to cycle through the 7 speeds of vibration. Press for 4 seconds to disengage the 7 speeds of vibration.

Initiate Turbo MAX Charge for an over-the-top sensation by tapping the large MAX button (above the HEAT button) while the Lick and Thump and the Vibration options are in use. Tap MAX again to resume the most recently used pattern.

Cleaning and storage

Clean, before and after every use. Dry completely. For best results, we recommend using Athena's (antibacterial) Mighty Tidy Toy Cleaner (SKU MTT-1235 4 oz. or SKU MTT-2762 8 oz.) Store in a cool dry location.

Lubrication

Be sure to use ample lubrication with your bedroom toys. For great results try Athena's Perfectly Pure Intimate Moisturizer (SKU 5701). You can find additional lubrication options on our web site or in our catalog.

Follow these simple steps to help extend the life cycle of your items

- Do not store products near extreme cold or heat.
- Do not store your adult toys in a manner where they are touching. Keep them separated to avoid melting or discoloring.
- Do not place lotion bottles or adult novelties directly on furniture surfaces.
- Place toys on a cloth to protect your toys and the finish on your furniture.

Caution: For adult use only as a non-medical pleasure device only. Discontinue use in the event of any medical condition or pain.

Warranty

All sales are final due to the intimate nature of our products. No cash refunds will be given.

Effective February 1, 2021, this motorized product is guaranteed for 5 years for a replacement of the exact item. Charging

Connect the USB cable to the USB port of your computer or other power source and the other end to the toys charging port.

The product arrives fully charged and can be used right away.

Adhere the magnetic charger directly onto the two magnetic dots on the vibrator located at the sleeve base. The indicator light will flash while charging and will remain solid when fully charged.

There is no danger to the battery by overcharging. However, we do not recommend overcharging for long periods of time.

Only use the charging cord provided in this package with this product.

- Complete charge: 4 hours
- Subsequent charges: 2.5 hours
- Run time high speed: 1.0 hour
- Run time low speed: 1.5 hours
